This International Search Authority has found 8 inventions claimed in the International Application covered by the claims indicated below:

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In order for all inventions to be examined, the appropriate additional examination fees must be paid.

Group I, claim(s) 1-22, 64-66, 79, 80, 93, 94, and 95-119, drawn to a bone cement.

1. This International Searching Authority considers that the international application does not comply with the requirements of unity of invention (Rules 13.1, 13.2 and 13.3) for the reasons indicated below:

The inventions listed as Groups I to VIII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Specifically, there is no corresponding special technical feature. Bone cement has been know to the art for many years. Furthermore, it has been known to hydraulically inject bone cement in to bone; see WO 2004080357. For this reason, the claimed Groups do not relate to a single general inventive concept under PCT Rule 13.1 and Rule 13.2.
